BODY-WORN CAMERA

MOTOROLA SOLUTIONS

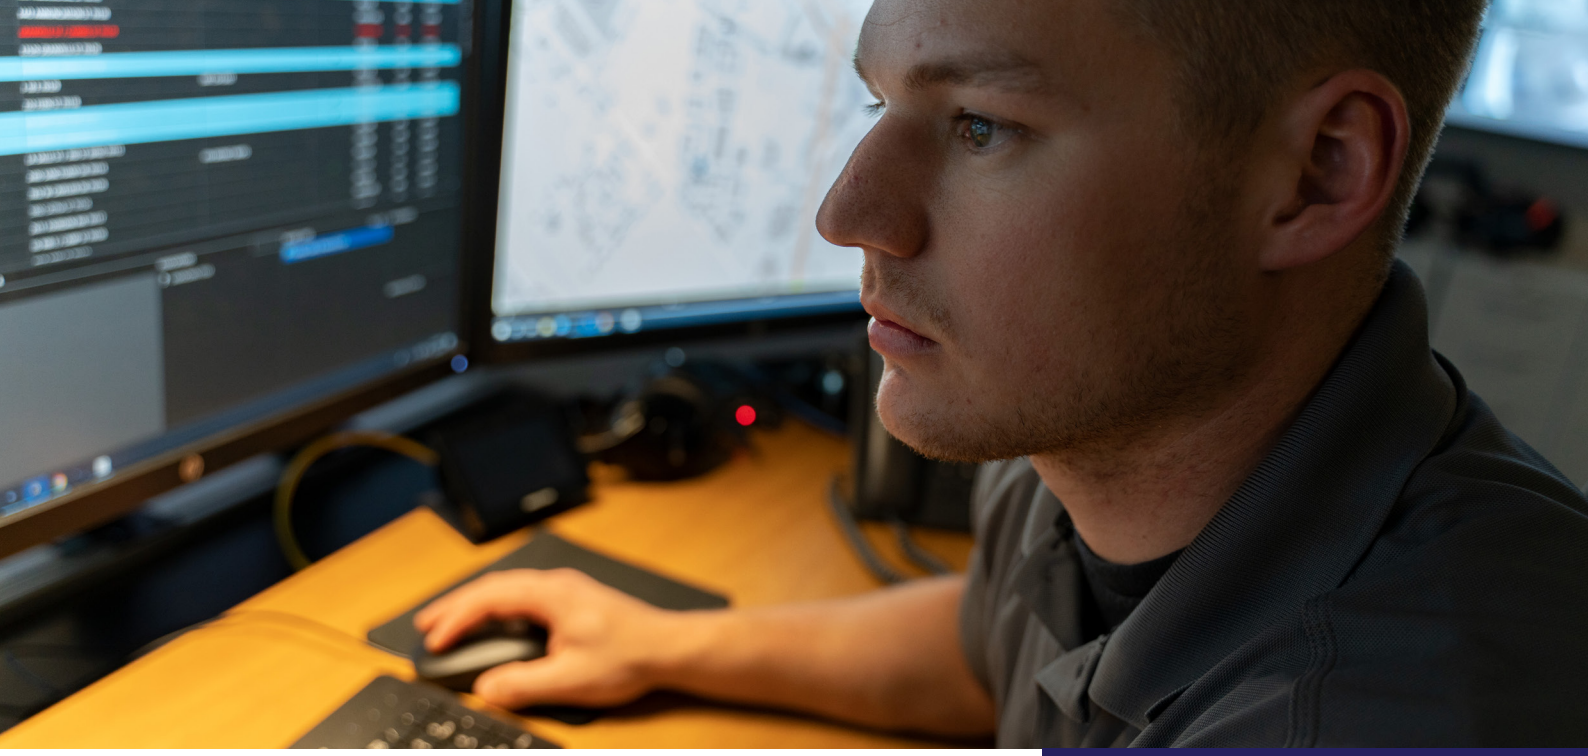
VT100 BODY-WORN CAMERA

A NEW PERSPECTIVE WHEN IT MATTERS MOST

The VT100 delivers a customizable and fully integrated enterprise mobile video solution. 720p HD video. Remote alarm activation. Customer-friendly design. Seamless integration with existing CCTV.

The VT100 offers a new perspective when it matters most.

> **" THE INDISPUTABLE EVIDENCE CAPTURED BY A VT100 IS PERFECT FOR INCIDENT MANAGEMENT AND RESPONSE. "**



RECORD. RESPOND. PROTECT.

Creating a safe working environment is a top priority. Thanks to remote alarm activation, the VT100 empowers control room teams to respond swiftly when incidents occur. Protecting your people and promoting a safety-first culture.

OVERVIEW

- ☑ VMS integration
- ☑ Remote alarm activation
- ☑ Up to 3 hours continuous recording
- ☑ Six month stand-by battery-life
- ☑ 16GB recording storage capacity
- ☑ Full HD recording
- ☑ Wi-Fi® streaming capabilities
- ☑ Flexible mounting options

PUSH-TO-STREAM ALERTING

Press record to send an instant alert to the control room for faster incident response and better protection.

Control room teams need visibility of situations on the ground to respond effectively.

Push-to-stream alerting on the VT100 delivers an audible alarm and live video feed to the control room when the wearer presses the record button.

REQUIRES MINIMAL INTERACTION

Protect staff and customers with a body-worn camera that's intuitive to operate and simple to manage.

Simple operation and long battery standby ensure the VT100 integrates seamlessly with existing workflows.

Video is secured on the VT100 to protect the integrity of your footage and support data protection compliance.

COMPLEMENTS EXISTING CCTV

Capture video and audio from the wearer's viewpoint to support fixed CCTV footage and empower your team to see the bigger picture.

The VT100 integrates seamlessly with existing CCTV infrastructure. Wi-Fi streaming combines live body-worn video and audio with fixed security camera footage. Delivering improved visibility to centralized control teams improves situational awareness for a smarter response.

CUSTOMER-FRIENDLY APPEARANCE

Customize the VT100 for seamless integration with existing workwear to boost your brand and deliver extra reassurance.

The lightweight VT100 is designed for customer-facing teams.

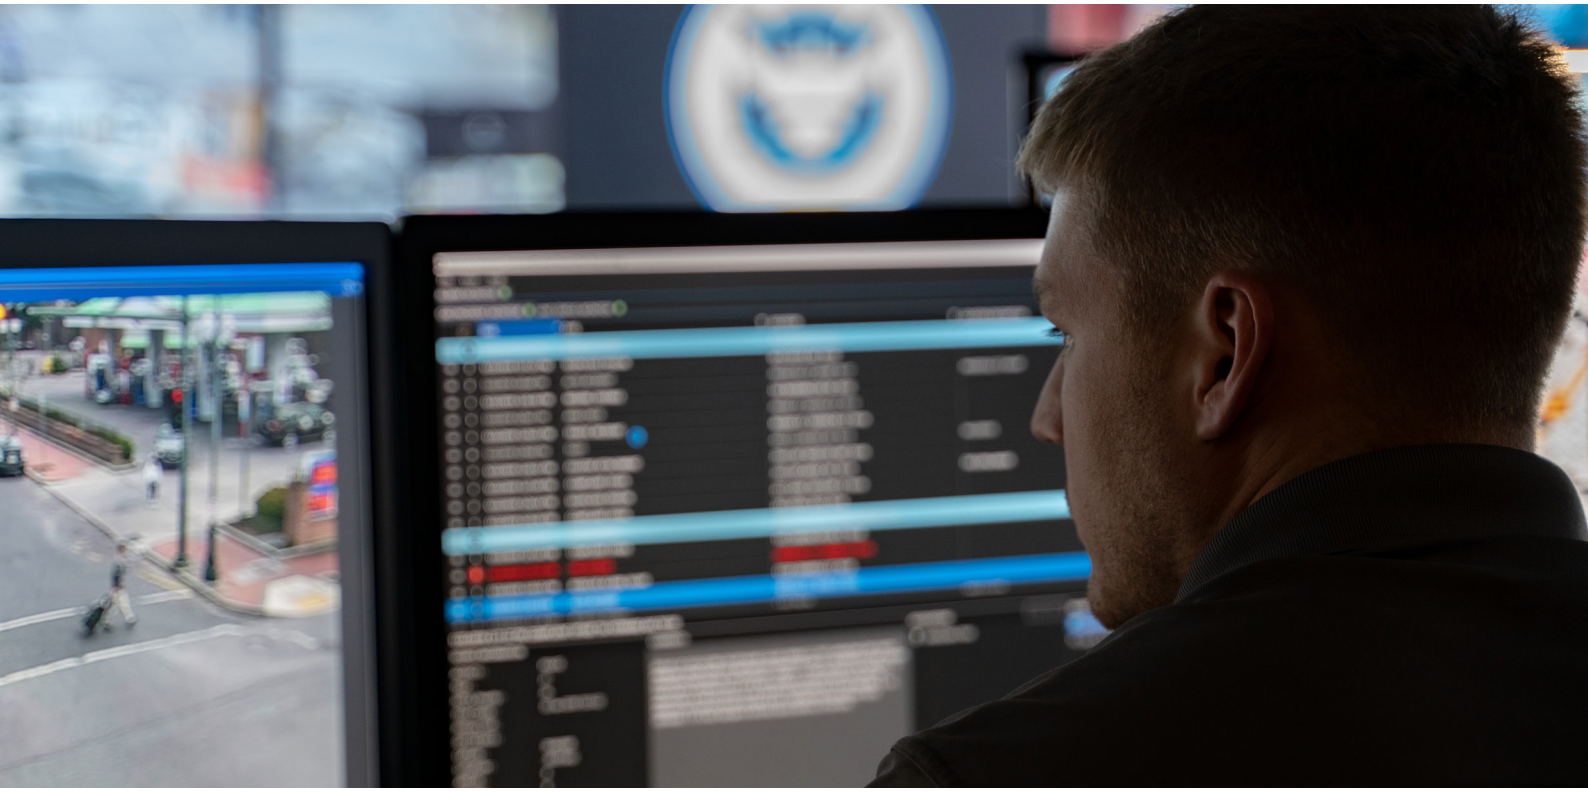
Customize the front tag with your logo and brand colors to make the VT100 an integral part of your staff uniform.

VMS INTEGRATION

Empowering your teams to see the bigger picture is essential for a safe and efficient workplace. Adding body-worn cameras to existing CCTV infrastructure delivers a first-person point of view to your security and surveillance operations.

The VT100 is designed for commercial applications where an intuitive, lightweight wearable camera that integrates seamlessly into existing fixed CCTV is required.

With its Wi-Fi streaming capabilities, the VT100 can record and stream for up to 1.5 hours on a single charge.



RAPID CAMERA ALLOCATION

Organizations with a large workforce need a fast and efficient method of allocating body-worn cameras. Staff simply swipe their RFID tag or ID card to obtain a VT100 for the duration of a shift.

Using RFID assigns the best available camera to the individual, removing unnecessary guesswork.

RFID camera allocation also ensures that recordings can be accurately attributed to the relevant member of staff in the event of a customer or colleague dispute.

VIDEOMANAGER
ADVANCED MEDIA, DEVICE AND USER MANAGEMENT SOFTWARE

Capture video. Prepare evidence. Share intelligence.

VideoManager enhances the capabilities of Motorola Solutions' body-worn cameras via a seamless, intuitive and highly configurable software experience. Security and workflow optimization take center stage. Customizable roles and device profiles control system access, and audit logs provide the all-important evidence trail required to support the judicial process.

FLEXIBLE AND SCALABLE

We know your organization is unique, that's why we built a VideoManager to suit everyone. Whether you need to support 10,000 body-worn cameras or 100, there's a VideoManager that fits.

ENTERPRISE LICENCE

- ☑ Complete Control
- ☑ Maximum Security
- ☑ Enables On-premises Integrations with VMS
- ☑ Leverage Your Existing Infrastructure
